LANGUAGES

Amharic — Native
Afan Oromo — Native
English — Professional

CERTIFICATIONS

AI Fundamentals — Udacity
Generative AI with AWS
Build Your First Website
Local SEO 2023 — Skillshare

PROFILE

BSc IT graduate from Wolaita Sodo University and Ethiopian developer building practical backend systems, web apps, automation tools, and community-focused software. I focus on code that solves real problems — from Telegram bots and government-sector IT to live data tools and mobile apps.

PROJECTS

Kokeba — Short Video & Voice Web App [↗ source](#)

Stack: React · Node.js · Web APIs

- TikTok-inspired platform for voice vocals and short-form expression; live on Vercel
- Handles user-generated audio content with social interaction features

Ethiopia Forex Currency Exchange Monitor [↗ source](#)

Stack: JavaScript · REST APIs

- Aggregates real-time exchange rates from multiple Ethiopian banks in one dashboard
- Allows users to compare rates side-by-side to find the best deal instantly

WSU Lost & Found Telegram Bot [↗ source](#)

Stack: Python · Flask · Telegram Bot API

- Multilingual bot (English, Amharic, Afaan Oromoo) for WSU campus community
- Features item reporting, listing search, and direct owner contact

WSU Dining App (Android) [↗ source](#)

Stack: Flutter · Android · QR Technology

- Digitalizes the campus dining system at Wolaita Sodo University via QR scanning
- Improves speed and accuracy of meal tracking versus the paper-based system

Telegram Story Downloader Bot [↗ source](#)

Stack: Python · Flask · Telegram Bot API

- Downloads public Telegram stories by username with inline mode and webhook support
- Includes admin alerts, force join, and both polling and webhook deployment modes

Voting Management System [↗ source](#)

Stack: C++

- Console-based system for voter registration and result tallying, built for Programming II

EXPERIENCE

IT Intern · Hawasa Revenue Authority 2024

- Configured and set up network infrastructure in a live government office environment
- Maintained existing networks and resolved technical incidents as they arose
- Supported daily IT operations: system setup, troubleshooting, and staff assistance
- Gained professional experience with real-world IT workflows outside of university

EDUCATION

BSc Information Technology · Wolaita Sodo University *Graduated 2026*

High School Certificate (Grade 9–12) · Urage Secondary School
